SUMMARY

Information Technology senior with a track record of excellent academic marks, specializing in mobile development. Proficient in **Flutter, Dart, Firebase**, and modern state management using **Riverpod**. Experienced in prototyping community-based platforms and IoT-integrated applications. Eager to apply my "simple yet elegant" design philosophy to build high-performance, maintainable systems.

DEVELOPMENT EXPERIENCE

WanderHuman (Capstone Project) | Flutter, Dart, Firebase, and Arduino Aug 2025 - Apr 2026

- Led the development of a cross-platform IoT tracking system designed to monitor and prevent wandering in dementia patients, delivering a reliable solution for caregivers.
- Optimized database architecture and query structuring to minimize unnecessary Firebase document reads, ensuring the application remained highly efficient within free-tier limits.
- Secured data integrity and user privacy by implementing strict Firebase database rules and authentication measures to prevent unauthorized data access.

FrioMoto | VB.Net, MySQL Oct - Dec 2024

- Developed a custom Point-of-Sale (POS) desktop application to streamline daily sales tracking and inventory management for a local retail business.

Personal Track | Flutter, SQLite Jan - Apr 2024

- Built a personal finance mobile application featuring a simple yet elegant user interface, allowing users to track daily expenses and configure goal-oriented budget allocations.

EDUCATION

Bachelor of Science in Information Technology Expected Graduation: April 2027

University of Mindanao Tagum College

- Academic Honors: Consistent Dean's Lister
- Relevant Coursework: Mobile Application Development, Database Management Systems, Object-Oriented Programming, Systems Integration, Human-Computer Interaction (HCI)

TECHNICAL SKILLS

- Languages:** Dart, Java, VB.Net
- Frameworks:** Flutter
- State Management:** Riverpod, Provider
- Databases:** Firebase, SQLite, MySQL
- Tools:** VS Code, Android Studio, Git / GitHub, Arduino
- Methodologies & Design:** UI/UX Design, Object-Oriented Programming (OOP), "Simple yet elegant" design principles
